

## **Kaiser contributes to critical causes**

On Monday, Jan. 14, Kaiser Permanente held a "thank you" luncheon for its Community Benefit grantees in Napa and Solano counties. Grantees are agencies that receive Kaiser Community Benefit funds to work with families, children, homeless individuals and others in our Napa and Solano communities.

As a Kaiser grantee and community partner, Cope Family Center would like to thank Kaiser Permanente for this special recognition. Several Napa county agencies benefit from Kaiser funding, and in turn we are better equipped to help the vulnerable members of our community make healthy lifestyle choices, improve their mental health status, and access health and dental care.

Special thanks to Cynthia Verrett and the entire Kaiser team for their continued support and for recognizing the important and critical work being done by community agencies in Napa County.
